

GRAPHITE ONE INC.
(formerly known as Graphite One Resources Inc.)

Consolidated Financial Statements

December 31, 2018

Independent auditor's report

To the Shareholders of Graphite One Inc. (formerly Graphite One Resources Inc.)

Our opinion

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of Graphite One Inc. and its subsidiary (together, the Company) as at December 31, 2018 and 2017, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards (IFRS).

What we have audited

The Company's consolidated financial statements comprise:

- the consolidated statements of financial position as at December 31, 2018 and 2017;
- the consolidated statements of loss and comprehensive loss for the years then ended;
- the consolidated statements of cash flows for the years then ended;
- the consolidated statements of changes in equity for the years then ended; and
- the notes to the consolidated financial statements, which include a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Canada. We have fulfilled our other ethical responsibilities in accordance with these requirements.

Material uncertainty related to going concern

We draw attention to Note 2 in the consolidated financial statements, which describes matters and conditions that indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

PricewaterhouseCoopers LLP
PricewaterhouseCoopers Place, 250 Howe Street, Suite 1400, Vancouver, British Columbia, Canada V6C 3S7
T: +1 604 806 7000, F: +1 604 806 7806

Other information

Management is responsible for the other information. The other information comprises Management's Discussion and Analysis.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of management and those charged with governance for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

The engagement partner on the audit resulting in this independent auditor's report is Mark Platt.

GRAPHITE ONE INC.

Notes to the Consolidated Financial Statements

December 31, 2018 and 2017

(Expressed in Canadian dollars)

1. NATURE OF OPERATIONS

Graphite One Inc. (“Graphite One” or the “Company”) was incorporated in Alberta and commenced operations on March 16, 2006 under the name Cedar Mountain Exploration Inc. (“Cedar Mountain”). In 2012, Cedar Mountain changed its name to Graphite One Resources Inc. and adopted the symbol GPH on the TSX-V effective March 27, 2012. On February 27, 2019 the Company changed its name to Graphite One Inc. On June 11, 2012 the Company began trading in the over the counter market in the United States on the OTCQX under the symbol GPHOF. Due to changes in the listing requirements of the OTCQX, the Company began trading on the OTCQB on April 1, 2017. The Company was continued into British Columbia on September 12, 2014. Graphite One is the parent company of the consolidated group.

Graphite One is engaged in the business of acquiring exploring and evaluating graphitic material properties. Through its 100% owned subsidiary, Graphite One (Alaska) Inc., the Company is focussed on the Graphite Creek property near Nome, Alaska, (the “Graphite Creek Project”).

The ability of the Company to proceed with the evaluation and development of the Graphite Creek Project depends on a number of factors, the key ones including obtaining the necessary financing to complete the evaluation and development, and ultimately upon future profitable production or proceeds from disposition of the Graphite Creek Project.

2. GOING CONCERN

These consolidated financial statements have been prepared on the basis of accounting principles applicable to a going concern, which assumes that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations as they come due. In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least, but is not limited to, twelve months from the end of the reporting period.

As at December 31, 2018, the Company had a cash balance of \$465,038 (2017 \$351,081) and working capital (current assets less current liabilities) of \$605,190 (2017 \$38,486). Current liabilities as at December 31, 2018 totalled \$93,169 (2017 \$475,982). The Company has incurred losses since inception and does not generate any cash inflows from operations. For the year ended December 31, 2018, cash used in operating activities totalled \$1,552,160 (2017 \$1,076,678).

The Company’s ability to continue to meet its obligations and carry out its planned exploration and development activities is uncertain and dependent upon the continued financial support of its shareholders and on securing additional financing. Subsequent to December 31, 2018 the Company closed a tranche of financing, raising gross proceeds of \$1,869,560 (see Note 11: Subsequent Events). There is, however, no assurance that any such initiatives will be sufficient and, as a result, there is significant doubt regarding the going concern assumption and, accordingly, the ultimate appropriateness of the use of accounting principles applicable to a going concern. These consolidated financial statements do not reflect the adjustments to the carrying values of assets and liabilities and the reported expenses and statement of financial position classifications that would be necessary if the Company were unable to realize its assets and settle its liabilities as a going concern in the normal course of operations for the foreseeable future. These adjustments could be material.

GRAPHITE ONE INC.
Notes to the Consolidated Financial Statements
December 31, 2018 and 2017
(Expressed in Canadian dollars)

3. BASIS OF PRESENTATION

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board (“IFRS”). The consolidated financial statements have been authorized for issue by the Board of Directors of the Company on April 26, 2019.

3.1 Basis of measurement

These consolidated financial statements have been prepared on a historical cost basis. The statements are presented in Canadian dollars unless otherwise noted.

3.2 Significant judgments, estimates and assumptions

The preparation of the Company’s consolidated financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Estimates and assumptions are continually evaluated and are based on management’s experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual results could differ from these estimates.

Judgments

Exploration and evaluation property: The Company is required to make significant judgments on the ongoing feasibility of mineral exploration, and whether there are indicators that the right to explore the specific area has expired or will expire, that further exploration and evaluation plans have changed, or whether development of a specific area is unlikely to recover existing exploration and evaluation property costs. If any of these indicators are present, management would need to assess whether the exploration and evaluation property should be impaired.

Estimates and assumptions

Share-based payments: Share-based payments are determined using the Black-Scholes Option Pricing Model based on estimated fair values of all share-based awards at the date of grant. The Black-Scholes Option Pricing Model utilizes subjective assumptions such as expected price volatility and expected life of the option. Changes in these input assumptions can significantly affect the fair value estimate.

3.3 Principles of Consolidation

These consolidated financial statements include the accounts of the Company and its wholly owned subsidiary, Graphite One (Alaska) Inc., incorporated in Alaska, USA. Control is defined as the exposure, or rights, to variable returns from involvement with an investee and the ability to affect those returns through power over the investee. Power over an investee exists when we have existing rights that give us the ability to direct the activities that significantly affect the investee’s returns. The financial statement of subsidiaries are included in the consolidated financial statement from the date that control commences until the date that control ceases.

GRAPHITE ONE INC.**Notes to the Consolidated Financial Statements****December 31, 2018 and 2017***(Expressed in Canadian dollars)*

4. SIGNIFICANT ACCOUNTING POLICIES**Foreign Currency Translation**

The consolidated financial statements are presented in Canadian dollars which is also the functional currency of the Company and its subsidiary. Transactions in foreign currencies are translated to the appropriate functional currency at foreign exchange rates that approximate those on the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency rate of exchange prevailing at the date of the statement of financial position. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. Foreign exchange gains and losses are included in profit and loss.

Cash

Cash and cash equivalents include cash on hand, demand deposits and short-term, highly liquid investments that are readily convertible to known amounts of cash within three months of purchase.

Equipment

Equipment is recorded at cost and carried net of accumulated depreciation and accumulated impairment losses. The cost of additions and improvements are capitalized. An item of equipment is derecognized upon disposal, or impaired when no future economic benefits are expected to arise from continued use of the asset. Any gain or loss on disposal of the asset, determined as the difference between the proceeds and the carrying amount of the asset is recognized in profit or loss.

	Depreciation
	Rate
Analytical equipment	20%
Mobile equipment	20%
Sample preparation lab	50%

The Company provides for depreciation using the straight-line method at rates designed to depreciate the cost of individual items over their estimated useful lives, less any residual value. Depreciation on operating assets is included in the statements of net loss as a component of office and administrative expenses. Depreciation of assets utilized in mineral exploration activities is capitalized as a cost of mineral properties.

GRAPHITE ONE INC.

Notes to the Consolidated Financial Statements

December 31, 2018 and 2017

(Expressed in Canadian dollars)

4. SIGNIFICANT ACCOUNTING POLICIES (cont'd...)

Exploration and Evaluation Properties

(i) Pre-license costs:

Costs incurred before the Company has obtained the legal right to explore are expensed as incurred.

(ii) Exploration and evaluation costs:

Once the legal right to explore has been acquired, exploration and evaluation expenditures are capitalized as incurred, unless future economic benefit is not expected to be realized. The Company capitalizes the costs of acquiring, maintaining its interest in, exploring and evaluating mineral properties until such time as the lease expires, the property is abandoned, sold or considered impaired in value, on a property by property basis. Indirect administrative costs are expensed as incurred. Exploration and evaluation properties are not amortized during the exploration and evaluation stage.

Once the technical feasibility and commercial viability of the extraction of mineral reserves or resources from a particular mineral property has been determined, the related expenditures are tested for impairment and are then reclassified to mineral property development costs.

The establishment of technical feasibility and commercial viability of a mineral property is assessed based on a combination of factors, including:

- The extent to which mineral reserves or mineral resources as defined in National Instrument 43-101 (“NI 43-101”) have been identified through a feasibility study or similar document;
- The results of optimization studies and further technical evaluation carried out to mitigate project risks identified in the feasibility study;
- The status of environmental permits; and
- The status of mining leases or permits.

Exploration and evaluation assets are tested for impairment immediately prior to reclassification to mineral property development costs.

Although the Company has taken steps to verify title to exploration and evaluation properties in which it has an interest, these procedures do not guarantee the Company’s title. Such properties may be subject to prior agreements or transfers, non-compliance with regulatory requirements or title may be affected by undetected defects.

Decommissioning and Restoration

The Company is subject to various governmental laws and regulations relating to the protection of the environment. The environmental regulations are regularly changing and are generally becoming more restrictive.

GRAPHITE ONE INC.**Notes to the Consolidated Financial Statements****December 31, 2018 and 2017***(Expressed in Canadian dollars)*

4. SIGNIFICANT ACCOUNTING POLICIES (cont'd)...

Decommissioning and restoration obligations encompass legal, statutory, contractual or constructive obligations associated with the retirement of a long-lived tangible asset (for example, mine reclamation costs) that results from the acquisition, construction, development and/or normal operation of a long-lived asset. The retirement of a long-lived asset is reflected by an other-than-temporary removal from service, including sale of the asset, abandonment or disposal in some other manner.

A liability for decommissioning and restoration is recorded in the period in which the obligation first arises. The Company records the estimated present value of future cash flows associated with site closure and reclamation as a long-term liability and increases the carrying value of the related assets for that amount. Over time, the liability is increased to reflect an interest element in the estimated future cash flows (accretion expense) considered in the initial measurement of fair value. The capitalized cost is amortized on either the unit-of-production basis or the straight-line basis, as appropriate. The Company's estimates of provisions for decommissioning and restoration obligations could change as a result of changes in regulations, changes to the current market-based discount rate, the extent of environmental remediation required, and the means of reclamation or cost estimates. Changes in estimates are accounted for in the period in which these estimates are revised.

As at December 31, 2018 and December 31, 2017 the Company has determined that it does not have any significant decommissioning and restoration obligations related to its operations.

Impairment

The carrying values of the Company's long-lived assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generate cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit" or "CGU"). The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future pre-tax cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

An impairment loss is recognized if the carrying value amount of an asset or its CGU exceeds its estimated recoverable amount. Impairment losses are recognized in profit or loss.

Impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized. A reversal of an impairment loss is recognized immediately in profit or loss.

GRAPHITE ONE INC.**Notes to the Consolidated Financial Statements****December 31, 2018 and 2017***(Expressed in Canadian dollars)*

4. SIGNIFICANT ACCOUNTING POLICIES (cont'd)...**Provisions**

Liabilities are recognized when the Company has a present legal or constructive obligation that has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation. A provision is a liability of uncertain timing or amount.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects the current market assessments of the time value of money and the risk specific to the obligation. The increase in the provision due to the passage of time is recognized as a financing expense.

Income Taxes

Tax expense recognized in profit or loss comprises the sum of deferred tax and current tax not recognized in other comprehensive income or directly in equity.

Current tax assets and liabilities comprise those obligations to, or claims from, fiscal authorities relating to the current or prior reporting periods, that are unpaid at the reporting date. Current tax is payable on taxable profit which differs from profit or loss in the financial statements. Calculation of current tax is based on tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period.

Deferred taxes are calculated using the liability method on temporary differences between the carrying amounts of assets and liabilities and their tax bases. Deferred tax is not provided on the initial recognition of goodwill or on the initial recognition of an asset or liability unless the related transaction is a business combination or affects taxable profit or accounting profit. Deferred tax liabilities on temporary differences associated with shares in subsidiaries are not provided for if reversal of these temporary differences can be controlled by the Company and it is probable that reversal will not occur in the foreseeable future.

Deferred tax assets and liabilities are measured using enacted or substantively enacted tax rates expected to apply to taxable income in the years in which those temporary differences are likely to reverse. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in profit or loss in the period that includes the substantive enactment date. Deferred tax assets are recognized for all temporary differences, carry-forward of unused tax credits and unused tax losses to the extent that it is probable that future taxable profits will be available against which they can be utilized.

Deferred tax assets and liabilities are calculated, without discounting, at tax rates that are expected to apply to their respective period of realization, provided they are enacted or substantively enacted by the end of the reporting period. Deferred tax assets are recognized to the extent that it is probable that they will be able to be utilized against future taxable income.

GRAPHITE ONE INC.**Notes to the Consolidated Financial Statements****December 31, 2018 and 2017***(Expressed in Canadian dollars)*

4. SIGNIFICANT ACCOUNTING POLICIES (cont'd)...

Deferred tax assets and liabilities are offset only when the Company has a right and intention to offset current tax assets and liabilities from the same taxation authority and the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same entity or different entities which intend to settle current tax assets and liabilities on a net basis or simultaneously in each future period in which significant amounts of deferred tax assets or liabilities are expected to be recovered or settled.

Changes in deferred tax assets or liabilities are recognized as a component of tax recovery or expense in profit or loss, except where they relate to items that are recognized in other comprehensive income or directly in equity, in which case the related deferred tax is also recognized in other comprehensive income or equity, respectively.

Share-based Payments

Share-based payment arrangements in which the Company receives goods or services from consultants are accounted for as equity-settled transactions and, when determinable, are recorded at the value of the goods and services received. If the value of the goods and services received are not determinable, then the fair value of the share-based payment is used.

The Company uses a fair value-based method (Black-Scholes Option Pricing Model) for all share options granted to directors, employees and certain consultants. For directors and employees, the fair value of the share options is measured at the date of grant. For grants to non-employees where the fair value of the goods or services is not determinable, the fair value of the share options is measured on the date the services are received.

The fair value of share-based payments is charged either to profit or loss, or exploration and evaluation property, with the offsetting credit to share option reserve. The fair value of the share options is recognized over the vesting period based on the best available estimate of the number of share options expected to vest. Estimates are subsequently revised if there is any indication that the number of share options expected to vest differs from previous estimates. Any cumulative adjustment prior to vesting is recognized in the current period. If options vest immediately, the expense is recognized when the options are granted. For non-employees, the share options are recognized over the related service period. When share options are exercised, the amounts previously recognized in share option reserve are transferred to share capital.

In the event share options are forfeited prior to vesting, the associated stock-based compensation recorded to date is reversed in the period of forfeiture. The fair value of any vested share options that expire remain in share option reserve.

Share capital

When the Company issues private placement units, the shares and warrants are measured using the residual method. This method allocates value first to the more easily measurable component based on fair value and the residual to the less easily measurable component. The Company considers the fair value of its shares to be the more easily measurable component and is valued with reference to the market price. The residual value is attributed to the warrants, if any, is recorded as a separate component of equity.

GRAPHITE ONE INC.**Notes to the Consolidated Financial Statements****December 31, 2018 and 2017***(Expressed in Canadian dollars)***4. SIGNIFICANT ACCOUNTING POLICIES (cont'd)...****Earnings (Loss) per Share**

Basic earnings (loss) per share are computed by dividing net earnings (loss) (the numerator) by the weighted average number of outstanding common shares for the period (denominator). In computing diluted earnings per share, an adjustment is made for the dilutive effect of outstanding share options, warrants and other convertible instruments.

In the periods when the Company reports a net loss, the effect of potential issuances of shares under share options and other convertible instruments is anti-dilutive, therefore, basic and diluted loss per share are the same. When diluted earnings per share is calculated, only those share options and other convertible instruments with exercise prices below the average trading price of the Company's common shares for the period will be dilutive.

Financial Instruments - Recognition and Measurement

Effective January 1, 2018, the Company classifies its financial assets in the following measurement categories:

- i) Those to be subsequently measured at amortized cost, or
- ii) Those to be subsequently measured at fair value (either through other comprehensive income ("FVOCI") or through profit or loss ("FVPL"))

The classification is driven by business model for managing the financial asset and their contractual cash flow characteristics.

The Company classifies its financial liabilities as those to be subsequently measured at amortized cost.

Financial instrument	Classification under IFRS 9 (Effective January 1, 2018)	Classification under IAS 39 (Until December 31, 2017)
Cash and cash equivalents, Deposits	Amortized cost	Loans and receivables
Trade and other accounts payable	Amortized cost	Other financial liabilities

At initial recognition financial assets and financial liabilities are measured at fair value less transaction costs except for financial assets classified as FVPL, where transaction costs are expensed directly to profit or loss.

Changes in Accounting Standards

The Company has adopted IFRS 9, "Financial Instruments: Classification and Measurement" for annual periods beginning on or after January 1, 2018, retrospectively, without restatement of prior year financial statements. IFRS 9 replaces IAS 39. Financial Instruments: Recognition and Measurements. There was no impact of adoption of IFRS 9 on the carrying value of the Company's financial assets or financial liabilities on the date of transition.

GRAPHITE ONE INC.**Notes to the Consolidated Financial Statements****December 31, 2018 and 2017***(Expressed in Canadian dollars)***4. SIGNIFICANT ACCOUNTING POLICIES (cont'd)...****Accounting standards issued but not yet in effect**

IFRS 16, "Leases" is effective for annual periods beginning on or after January 1, 2019. The adoption of IFRS 16 is not expected to have material impact on the Company's financial statements.

5. EXPLORATION AND EVALUATION PROPERTY

The following table summarizes the capitalized costs associated with the Company's exploration and evaluation property:

Effective March 27, 2018, after conversion of Federal mining claims to Alaska state claims, the Graphite Creek Property consists of fifty-six Alaska state mining claims (the "GC Purchased Property") and one hundred and twenty Alaska state mining claims (the "GC Staked Property").

GRAPHITE ONE INC.**Notes to the Consolidated Financial Statements****December 31, 2018 and 2017***(Expressed in Canadian dollars)*

5. EXPLORATION AND EVALUATION PROPERTY (cont'd)...

In May 2015, the Company executed a long-term lease agreement with Kougarok LLC, commencing effective January 1, 2014 with an initial term of twenty years, and with provisions to extend the lease for two successive twenty-year periods and ultimately for as long as production, if any, continues from the property. An advance royalty in the amount of US\$30,000 was paid upon execution of the agreement, with annual payments of US\$30,000 due each year until January 2019, and then increasing by US\$10,000 each year until production commences. All required payments under the agreement have been made to date. The production royalties are to be calculated as follows: 5% from lands in the 4 formerly federal claims originally located in 1943; 2.5% from lands within the other 20 federal claims; 5% from lands within state claims staked by the Company within the area of interest; and 2.5% from state claims acquired by the Company within the area of interest. All advance royalties paid may be recouped from production royalties. The Company has the option to reduce the production royalties by up to 2% by paying US\$2 million for each 1% reduction of the production royalties.

On January 24, 2012, the Company purchased from a private individual (the "Seller") the GC Purchased Property for \$20,000 and a 2% production royalty on future production, if any, from the GC Purchased Property. The Company had the right to purchase the production royalty for \$1 million until January 24, 2015 (the "Royalty Purchase Option"). The Company and the Seller entered into an extension agreement effective January 24, 2015 (the "2015 Extension Agreement"). In connection with the 2015 Extension Agreement, the Company issued to the Seller pre-consolidated 769,231 common shares of the Company at an issue price of \$0.13 per share. In January 2017, the Company and the Seller agreed to further extend the terms of the Royalty Purchase Option and entered into an extension agreement effective January 24, 2017 (the "2017 Extension Agreement") whereby the Royalty Purchase Option may be exercised at any time on or before January 24, 2021. In connection with the 2017 Extension Agreement, the Company issued to the Seller pre-consolidated 1,666,667 common shares of the Company at a fair value of \$0.09 per share and 1,153,846 common share purchase warrants of the Company.

During June 2015, the Company purchased from another private individual the balance of the GC Purchased Property (28 Alaska state mining claims covering the same lands as the 28 Alaska state mining claims acquired in January 2012) for US\$50,000, the issuance of 3 million common shares of the Company at a fair value of \$270,000 and a royalty interest equal to 1% of the Net Smelter Returns received by the Company on production, if any, from the claims. The Company has the right to purchase the royalty for US\$500,000 at any time within 36 months following the start of mine production.

6. LOAN PAYABLE

On December 26, 2018 the Company entered into a loan agreement with Taiga Mining, Inc. to borrow US\$500,000. The loan is unsecured with a term of five years. Interest is calculated on a simple interest basis at a rate of 8% per annum. Any unpaid balance of the loan and accrued interest is repayable on or before December 26, 2023. Subsequent to December 31, 2018, the loan payable was settled through the issuance of 1,330,000 shares of the Company at a price of CA\$0.50 per share. Accrued interest to the date of settlement on March 28, 2019 of \$13,274 will be paid in cash.

GRAPHITE ONE INC.**Notes to the Consolidated Financial Statements****December 31, 2018 and 2017***(Expressed in Canadian dollars)*

7. SHARE CAPITAL**7.1 Authorized**

Unlimited number of common shares with no par value.

7.2 Shares Issued

The following share transactions occurred during the year ended December 31, 2018:

On May 25, 2018, the Company completed a private placement for total gross proceeds of \$2,143,050. Pursuant to this private placement, the Company issued a total of 3,061,500 units (the "2018-1 Units") at a price of C\$0.70 per 2018-1 Unit. Each 2018-1 Unit consists of one common share and one transferable common share purchase warrant (a "2018-1 Warrant"). Each 2018-1 Warrant entitles the holder to purchase one additional common share of the Company at a purchase price of \$0.20 per share during the 60 months from the date of issuance. Based on the residual valuation method, no value was attributed to the 2018-1 Warrants. The Company paid finder's fees in the amount of \$13,104 and issued 18,720 transferrable warrants, each such warrant entitling the holder to acquire one additional common share of the Company at the same price as the 2018-1 Warrants described above.

On July 19, 2018, the Company completed a private placement for total gross proceeds of \$2,140,221. Pursuant to this private placement, the Company issued a total of 3,057,459 units (the "2018-2 Units") at a price of C\$0.70 per 2018-2 Unit. Each 2018-2 Unit consists of one common share and one transferable common share purchase warrant (a "2018-2 Warrant"). Each 2018-2 Warrant entitles the holder to purchase one additional common share of the Company at a purchase price of \$1.20 per share during the 60 months from the date of issuance. Based on the residual valuation method, no value was attributed to the 2018-2 Warrants. The Company paid finder's fees in the amount of \$2,800 and issued 3,500 transferrable warrants, each such warrant entitling the holder to acquire one additional common share of the Company at the same price as the 2018-2 Warrants described above.

The following share transactions occurred during the year ended December 31, 2017:

In February 2017, the Company issued 166,667 common shares at a fair value of \$150,000, and 115,384 share purchase warrants at a fair value of \$54,692, both in connection with an agreement to extend the Company's right to purchase a net smelter return royalty. The Company incurred share issuance costs of \$1,622.

On August 22, 2017, the Company completed a private placement for total gross proceeds of \$678,800. Pursuant to this private placement, the Company issued a total of 969,714 units (the "2017-1 Units") at a price of C\$0.70 per 2017-1 Unit. Each 2017-1 Unit consisted of one common share and one transferable common share purchase warrant (a "2017-1 Warrant"). Each 2017-1 Warrant entitles the holder to purchase one additional common share of the Company at a purchase price of \$1.20 per share during the 60 months from the date of issuance. Based on the residual valuation method, no value was attributed to the 2017-1 Warrants. The Company incurred share issuance costs of \$14,081.

GRAPHITE ONE INC.**Notes to the Consolidated Financial Statements****December 31, 2018 and 2017***(Expressed in Canadian dollars)*

7. SHARE CAPITAL (cont'd)...

On December 4, 2017, the Company completed a private placement for total gross proceeds of \$707,202. Pursuant to this private placement, the Company issued a total of 1,414,371 units (the "2017-2 Units") at a price of C\$0.50 per 2017-2 Unit. Each 2017-2 Unit consists of one common share and one transferable common share purchase warrant (a "2017-2 Warrant"). Each 2017-2 Warrant entitles the holder to purchase one additional common share of the Company at a purchase price of \$1.00 per share during the 60 months from the date of issuance. Based on the residual valuation method, no value was attributed to the 2017-2 Warrants. The Company incurred share issuance costs of \$6,367.

Subsequent to December 31, 2018, 1,330,000 shares with a value of \$0.50 per share were issued in settlement of the loan payable (see Note 6).

Subsequent to December 31, 2018 the Company completed the first tranche of a private placement for total gross proceeds of \$1,869,560. Pursuant to this private placement, the Company issued a total of 6,231,867 units (the "2019-1 Units") at a price of C\$0.30 per 2019-1 Unit. Each 2019-1 Unit consists of one common share and one transferable common share purchase warrant (a "2019-1 Warrant"). Each 2019-1 Warrant entitles the holder to purchase one additional common share of the Company at a purchase price of \$0.30 per share during year from the date of issuance. Based on the residual valuation method, no value was attributed to the 2019-1 Warrants.

7.3 Share based compensation

Pursuant to a stock option plan (the "Plan") for directors, officers, employees and consultants, the Company may reserve a maximum of 10% of the issued and outstanding listed common shares, the exercise price to be determined on the date of issuance of the options. The options are non-transferable and will expire, if not exercised, 90 days following the date the optionee ceases to be a director, officer, employee or consultant of the Company for reasons other than death, one year after the death of an optionee or on the fifth anniversary of the date the option was granted. Options granted under the plan may not exceed five years and vest at terms to be determined by the board of directors at the time of the grant but shall not be less than the higher of the price determined by policy or policies of the stock exchange(s) on which the Company's common shares are then listed, or \$0.05 per share.

(Expressed in Canadian dollars)

7 SHARE CAPITAL (cont'd)...

The fair value of the share options granted in the years ended December 31, 2018 and December 31, 2017 was estimated on the date of grant using the Black-Scholes Option Pricing Model with the following weighted average assumptions:

	Year ended December 31, 2018	Year ended December 31, 2017
Exercise price	\$0.60	\$0.60
Market price	\$0.650	\$0.850
Risk free interest rate	2.06%	1.86%
Expected option life	5 years	5 years
Expected stock price volatility	101%	102%
Dividend payments during life of option	Nil	Nil
Expected forfeiture rate	Nil	Nil
Average fair value per option	\$0.50	\$0.68

The expected life is based on current expectations. The expected volatility reflects the assumption that the historical volatility over a period similar to the life of the options is indicative of future trends.

Stock options outstanding:

As at December 31, 2018				As at December 31, 2017

(Expressed in Canadian dollars)

8. RELATED PARTY TRANSACTIONS AND BALANCES (cont'd)...

Amounts owing to related parties are non-interest bearing, unsecured and due on demand. The transactions were in the normal course of operations. At December 31, 2018, the Company owed \$18,000 (December 31, 2017- \$118,875) to related parties.

8.2 Key management compensation

Key management are those personnel having the authority and responsibility for planning, directing and controlling the Company and include the President, Chief Executive Officer, Directors, Chief Financial Officer, Chief Operating Officer and General Manager, Operations. Compensation paid to key personnel was as follows:

For the year ended December 31,	2018	2017
Consulting and directors' fees	\$ 298,000	\$ 310,000
Salaries and benefits	677,348	670,501
Stock-based compensation	49,700	308,035
	<u>\$ 1,025,048</u>	<u>\$ 1,288,536</u>

9. FINANCIAL RISK MANAGEMENT

9.1 Financial Risk Management

The Company may be exposed to risks of varying degrees of significance which could affect its ability to achieve its strategic objectives. The main objectives of the Company's risk management processes are to ensure that risks are properly identified and that the capital base is adequate in relation to those risks. The principal risks to which the Company is exposed are described below.

a. Credit risk

Credit risk is the risk of potential loss to the Company if counterparty to a financial instrument fails to meet its contractual obligations. The Company's credit risk is primarily attributable to its cash.

The Company has assessed its exposure to credit risk on its cash and has determined that such risk is minimal. The majority of the Company's cash is held with reputable financial institutions in Canada.

b. Liquidity risk

Liquidity risk is the risk that the Company is not able to meet its financial obligations as they fall due. As at December 31, 2018, the Company had working capital of \$605,190, with current assets of \$698,359 and current liabilities of \$93,169. The Company will seek additional financing through debt or equity offerings, but there can be no assurance that such financing will be available on terms acceptable to the Company or at all. See Note 2, Going Concern.

The Company has determined that there is no need to comply with any of the covenants in borrowing as at December 31, 2018.

GRAPHITE ONE INC.
Notes to the Consolidated Financial Statements
December 31, 2018 and 2017
(Expressed in Canadian dollars)

9. FINANCIAL RISK MANAGEMENT (cont'd)...

c. Interest rate risk

Interest rate risk is the risk arising from the effect of changes in prevailing interest rates on the Company's financial instruments.

The Company had \$465,038 in Cash at December 31, 2018, on which it earns variable rates of interest, and may therefore be subject to a certain amount of risk, though this risk is considered by management to be immaterial.

d. Foreign currency risk

Foreign currency risk is the risk that the fair value of, or future cash flows from, the Company's financial instruments will fluctuate because of changes in foreign exchange rates. The Company maintains the majority of its cash reserves in Canadian dollars. A portion of the Company's funds are held in United States dollars and are therefore subject to fluctuations in foreign exchange rates.

At December 31, 2018, the Company has certain monetary items denominated in United States dollars. Based on these net exposures at December 31, 2018 a 10% appreciation or depreciation of the Canadian Dollar against the United States dollar would result in an increase or decrease of \$50,100 in the Company's net loss.

9.2 Fair Values

The carrying values of cash, deposits and amounts receivable and trade and other accounts payable approximate fair values due to their short-term to maturity nature or the ability to readily convert to cash.

10. INCOME TAXES

The income tax provision differs from the amount computed by applying the statutory rates to loss before income taxes. These differences result from the following:

Year ended	December 31 2018	December 31 2017
Loss before income taxes	\$ 1,133,199	\$ 1,610,705
Statutory rate	26.00%	26.00%
Expected tax recovery	294,632	418,783
Effect of tax rate changes and tax rates in foreign jurisdictions	16,578	5,044
Non-deductible expenses	33,633	(107,510)
Tax benefits not recognised	(344,843)	(316,317)
Income tax recovery (expense)	\$ -	\$ -

GRAPHITE ONE INC.
Notes to the Consolidated Financial Statements
December 31, 2018 and 2017
(Expressed in Canadian dollars)

10. INCOME TAXES (cont'd)...

Unrecognized deferred tax asset is comprised of the following tax affected temporary differences:

Year ended	December 31 2018	December 31 2017
Mineral properties	\$ 734,969	\$ 305,563
Non-capital losses carried forward	6,899,540	5,903,385
Capital loss carried forward	58,764	58,764
Share issuance and incorporation costs	47,048	66,113
Unrecognized deferred tax asset	\$ 7,740,321	\$ 6,333,825

As at December 31, 2018 the Company had tax operating losses available of the following, which expire at various dates and amounts between 2024 and 2037.

Canada	\$	14,779,029
United States	\$	7,436,129

The ability to use U.S. loss carry-forwards in future is subject to certain limitations under provisions of the Internal Revenue Code, including Section 382, which relates to a 50% change in control of ultimate shareholders over a three-year period, and is further dependent upon the Company attaining profitable operations. Ownership changes, as defined, may have occurred in prior years for Graphite One Resources Inc. and the U.S. tax losses related to Graphite One (Alaska) Inc. may be subject to limitation under Section 382. Accordingly, the Company's ability to use these losses may be limited or such losses may expire un-utilized. Losses incurred to date may be further limited if a subsequent change in control occurs.

11. SUBSEQUENT EVENTS

Subsequent to December 31, 2018, as described in Note 7.2, the Company settled the outstanding loan payable through the issuance of shares and closed the first tranche of a private placement.

Subsequent to December 31, 2018 the Company completed the first tranche of a private placement for total gross proceeds of \$1,869,560. Pursuant to this private placement, the Company issued a total of 6,231,867 units (the "2019-1 Units") at a price of C\$0.30 per 2019-1 Unit. Each 2019-1 Unit consists of one common share and one transferable common share purchase warrant (a "2019-1 Warrant"). Each 2019-1 Warrant entitles the holder to purchase one additional common share of the Company at a purchase price of \$0.30 per share during year from the date of issuance. Based on the residual valuation method, no value was attributed to the 2019-1 Warrants.
